MEMORANDUM FOR:

25X1

SUBJECT : Phase-Out of Project OXCART

1. The Special Security Center has received information that the OXCART program is being phased out and that community [redacted] should be so informed. All A-12 aircraft have been placed in storage including those formerly deployed overseas. Project Headquarters has also closed out OXCART overseas detachment facilities. Appropriate security phase-out responsibilities at those locations have been finalized including document destruction, courier, movement of classified material to CONUS, as appropriate [redacted] and personnel debriefings. However, a few cleared contracts, of necessity, will retain OXCART clearance status.

25X1

2. It is suggested that [redacted] commence the debriefing of those personnel who no longer will be required to support the phase out or to protect future OXCART operational interests.

25X1

3. [redacted] must carefully review holders of OXCART clearances to insure that those officials having a continuing requirement for knowledgeability of the program or who require access to [redacted] documents having dual codewords including OXCART are not debriefed at this time.

4. Disengagement of OXCART cleared personnel associated with TAGBOARD should be accomplished so as not to disrupt continued TAGBOARD efficiency.

5. Report OXCART debriefings to the Compartmented Information Branch/CIA (Room 3 E 47) in the prescribed fashion.
